# MIDOCO - Story

# MIDOCO - References

## OTA

Most larger OTAs in Germany are working with Midoco as their mid-office partner. Large fulfillment and call centers are using Midoco to process Online package and flight bookings.

## TMCs / Travel Agencies

The Profile Data Automation of Umbrella Faces is widely used by international TMCs. Midoco Midoffice has a strong client base in Germany and Austria, with growing business in the UK, Benelux and other markets.

## Tour Operators & others

Dynamic tour operators are using Midoco as their mid-office behind their packaging engines. Corporates like ABB or Boss are using profile automation

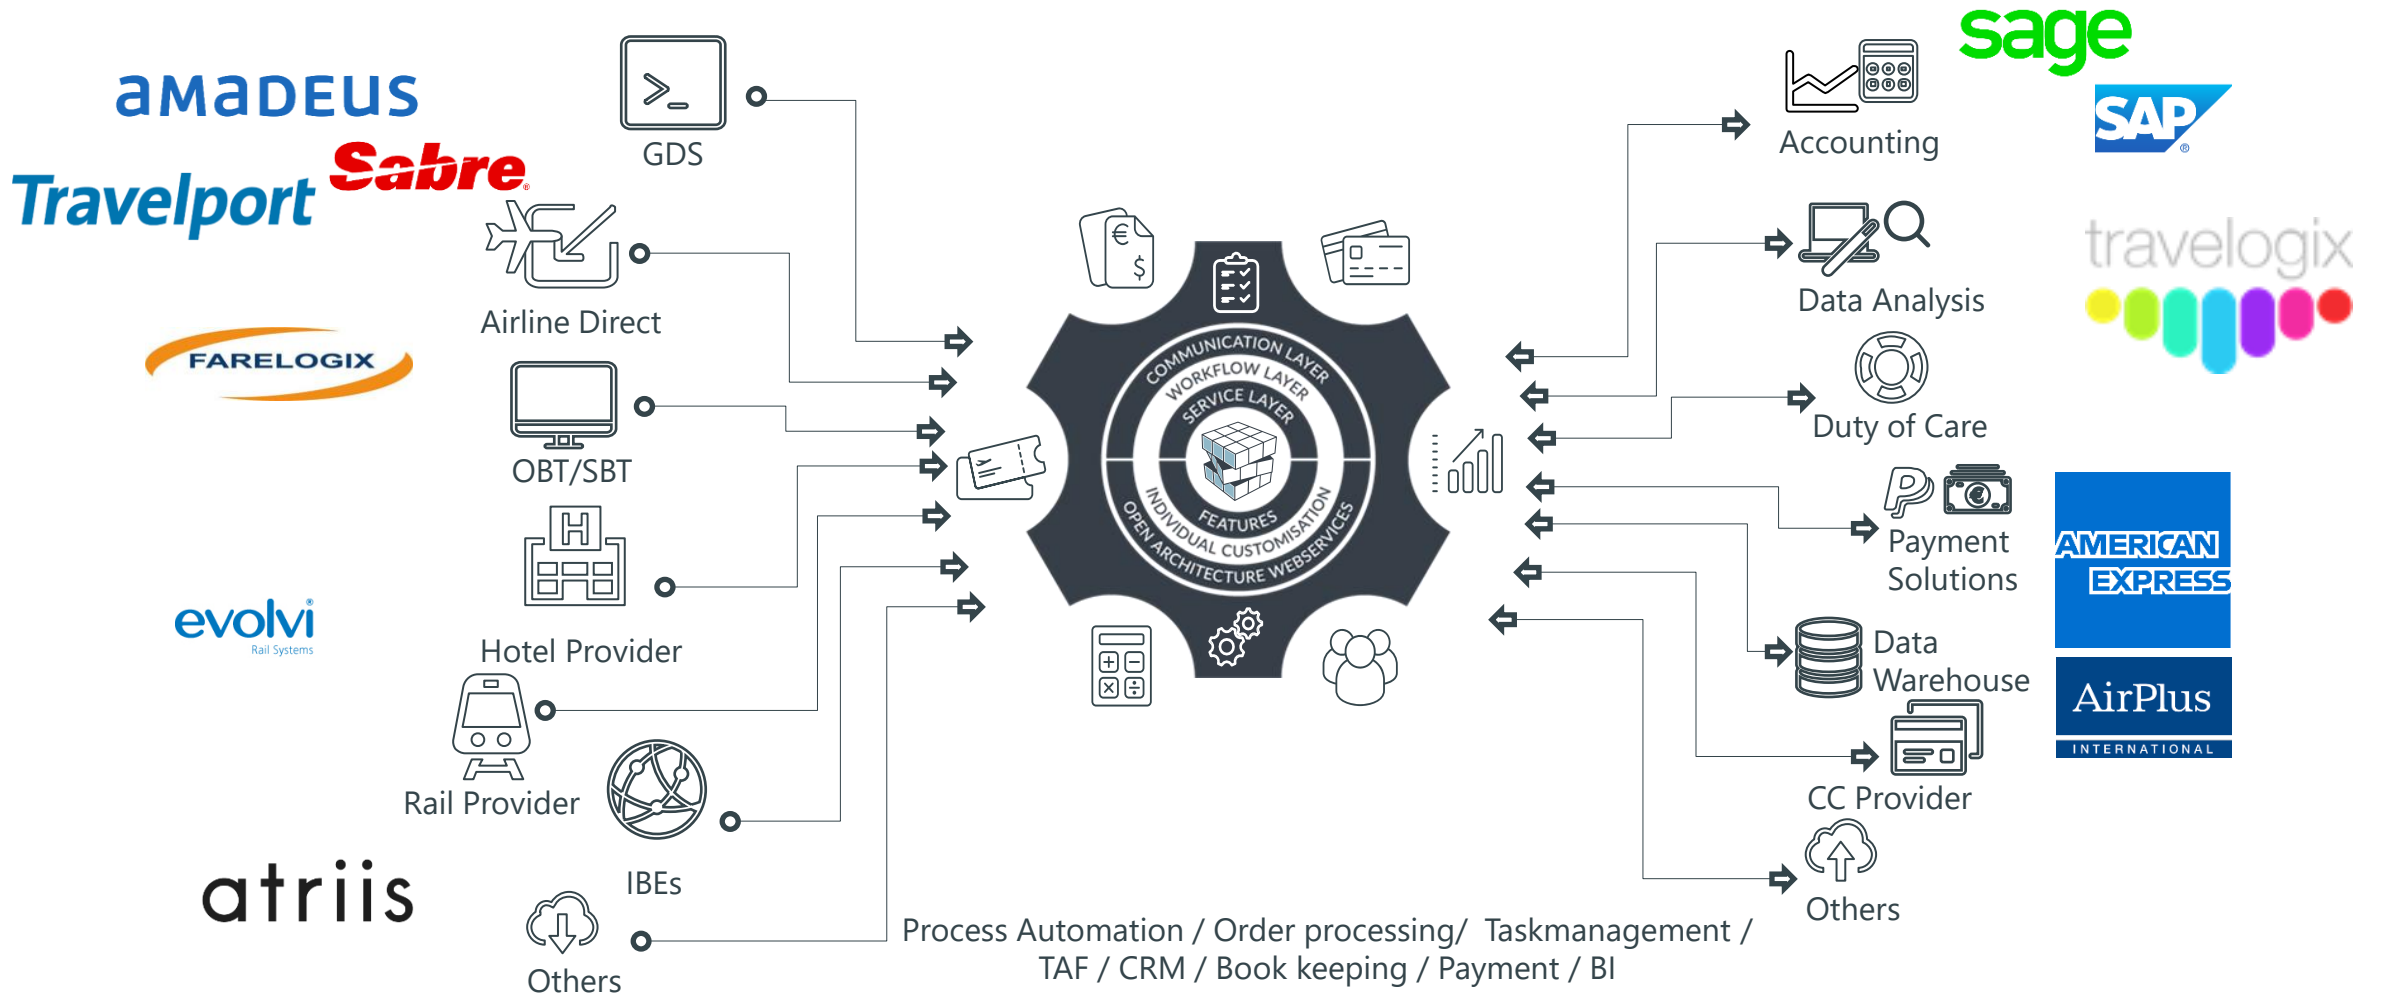

# MIDOCO - Solution

Midoco is a highly automated Midoffice/ERP- System for TMCs, OTAs, travel agency organisations and tour operators. Midoco is responsible for the process chain after ticketing/booking. Its outstanding process automation or transaction fee calculation is setting standards in the travel industry. Midoco is compatible with many third-party back-office systems and multiple GDSs or NDC based booking platforms. It can easily be integrated into an existing IT landscape. As an automated system Midoco enables fully automated invoicing directly after ticketing, it fully supports GDPR and PCI/DSS and is eliminating human error and effort.
